

# Possible Subjects for CSEAC Work Groups

**Please rank your #1, #2, and #3 choices of topic you would like to see the CSEAC create a work group around in order to develop a recommendation for the MNsure Board of Directors:**

\_\_\_ Health Literacy for Minnesota Health Care Program Enrollees – communication material used by DHS, counties and MNsure

\_\_\_ Affordability – Value stream mapping to promote pricing transparency; determine what factors contribute to total cost of care and who bears that cost

\_\_\_ Consumer Education – helping people determine and mitigate the total cost of health care by understanding how to evaluate and compare various insurance plans/programs

\_\_\_ The Affordability Cliff – ideas for MNsure policy/practices to ease the transition between public programs and private coverage for consumers

\_\_\_ Individual Market Stabilization – What policy solutions can MNsure advocate for at the State level that would support individual market stabilization and increase affordability (e.g., PERA self-insured model, MinnesotaCare buy-in option for all)?

\_\_\_ Lowering Uninsured Rate – identifying barriers to coverage; targeting specific/identifiable populations and geographic areas

\_\_\_ Attracting Off-Exchange Consumers – steps MNsure could take to attract these consumers

\_\_\_ State-Based Exchanges – What is MN doing well and where can possible improvements be made to best help Minnesotans access health coverage through MNsure?

\_\_\_ Coordination of Existing DHS/County/MNsure Services – to provide a single source of information/assistance for consumers

\_\_\_ Assister Competency – developing guidelines to ensure consumers receive consistent, high-quality services from MNsure-certified assisters
