Minnesota Health Care Programs: December Updates

Navigator/ CAC All State Monthly Webinar

December 7, 2022
Status of the Federal Public Health Emergency

• Current 90-day emergency declaration valid through January 10, 2023.

• We did not get the expected 60-day advance notice from the federal government in November, so we expect the declaration will be renewed.

• If renewed again, the next 90-day period would expire after April 10, 2023.

• New timeline being finalized based on expected renewal of the public health emergency.
