

2016-17 Navigator Outreach and Enrollment Grantees

\$4 million, 23 grants will fund 62 organizations

Goal of the Consumer Assistance Program

The goal of MNSure's Consumer Assistance Program is to ensure all Minnesotans are connected to affordable and comprehensive health insurance coverage.

Purpose of Navigator Grants

The Fiscal Year 2017 Navigator Outreach and Enrollment Grant Program supports this goal by funding targeted outreach to uninsured populations, especially those communities that have historically experienced disparities, and sustaining a robust statewide navigator network to provide assistance to Minnesotans who need help to complete enrollment.

Funding Areas

Approximately \$4 million is being awarded through 23 grants to further the goal of the consumer assistance program and to support outreach and enrollment efforts from July 1, 2016, through June 30, 2017.

Navigator Network Grants

Grants support building statewide access to enrollment assistance and sustaining a network of navigator organizations working closely with MNSure on strategies to reach, enroll and renew consumers in health coverage.

Enrollment Grants

Grants support navigator enrollment capacity (navigator staff) within organizations that demonstrate an ability to reach populations with high levels of uninsurance.
